CARDBOARD EDGE PROTECTORS

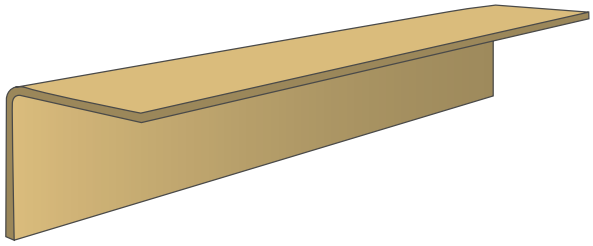

CARDBOARD NOTCHED EDGE PROTECTOR

These cardboard protection profiles are specifically designed to protect circular heads of coil materials and any other irregularly shaped surface. They are highly robust, flexible, and versatile protections that can be used for various packaging solutions, offering excellent protection and ease of use. Available in white or brown colors, toothed angle profiles are made from kraft cardboard, a recyclable material that poses no disposal issues, making it ideal in terms of environmental sustainability. They are generally supplied in standard roll format to optimize transportation costs and facilitate handling. Our angles can also be used in combination with cardboard discs to further increase the surface area of the protected product.

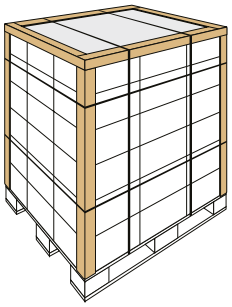

NOTCHED EDGE PROTECTOR

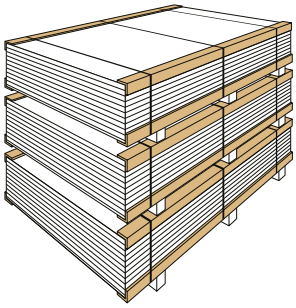

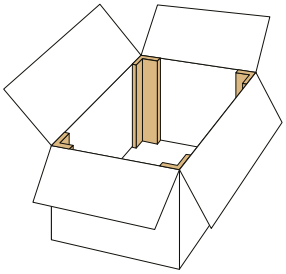

ANGLE BAR EDGE PROTECTOR

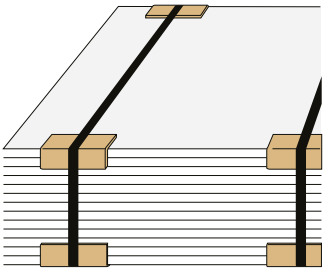

CARDBOARD ANGLE BAR EDGE PROTECTOR

These protection profiles have an L-shape, designed to protect all types of products during shipping, handling, and storage. The angle bar edge protector corners are made from reinforced kraft cardboard and joined together with eco-friendly vinyl glue. Their primary function is to protect corners and increase the stacking ability of boxes on pallets, multiplying the vertical load capacity and impact resistance. Like the notched edge ones, the angle bar edge protector are an ideal solution in terms of sustainability and robustness, providing strength and durability, making them top-notch in their category. They are available in various thicknesses and lengths to meet individual packaging needs.
